Miss Iva Estes, who went from Augusta to enter the Salvation Army work in Boston, was seriously injured by a piece of lee which was thrown at her and estruck her in the face, recently. Her dress and cloak were also builty damaged by a substance thrown upon them.

A paper mill has just been built at Alpena, Mich., which will manufacture all kinds of paper from Jack pinc, which has been considered a perfectly useless wood. Heavy Bergh Insists that If the New York dudes want to slick pigs they must thrown upon them.

were also builty damaged by a substance thrown upon them.

Friday evening the annual Christmas tree festival occurred at the Insane Hospital and was participated in with eager joy by nearly four hundred of the inmates. Several large evergrees trees had been provided and their branches were fairly hidden beneath the gifts. There was a present for every person, many of which consisted of confectionery, pop corn, etc., provided by the officers by the institution. But in addition there were many valuable and useful gifts presented by friends or purchased with money provided by them. There was a valuable Christmas donation from Dr. Torsey of Kent's Hill. There were many expressions of delight from the recipients as they received their gifts: Excellent Christmas runsic, vocal and instrumental, was rendered, and a dance closed the evening enjoyment.

Coroner's Verdict

F. A. CUMMINGS

BOUTELLE & BURR, PROPRIETORS.

All business letters should be addre

THURSDAY, DECEMBER 30, 1886.

The funeral of the late Gen. Logan will take place in the Senate Chamber, Friday. The place for the final interment of his remains has not as yet been fully settled

It is fitting that the veterans of the

obsequies of the late Gen. Logan. He was not only a leading member of the organization when living, but one of its most highly esteemed comrades. Goy. Robinson, whose name has been

hand for some Democratic contemporaries
to understand that the day for thus imposing on the labor vote of the country is

sawel as other officials of the institution,
as well as other officials of the institution, to understand that the day for thus imposing on the labor vote of the country is past. The man who toils for a living now examines these questions for himself and hence the revolt from the Democratic free trade standard.

son, a notorious politician, the failure on the part of the officials to recognize the arouses a feeling of indignation. The ex-

arouses a feeling of indignation. The excuse of the officials is that they have received no orders from the Department at Washington, but in the case of Thompsou the custodian of the building, who is a brother-in-law of Secretary Manning, did not wait for orders.

There has been considerable said in the papers of late about the proposed visit of Gov. Hill to Washington where he was to be the guest of the President. These papers, or such of them as support the Administration, have taken this announcement as a pleasant omen that Gov. Hill would not antagonize Mr. Cleveland in 1838 and that all was serene between the two gentlemen. Now, however, comes the report from New York, in the shape of an interview with Tov. Hill, that there is no foundation for the statement, the Governor saying: "I am not now on by way to Washington. I never had any intention of going there as has been stated. Came to Now York for a day or two and shall return to Albany before the end of the Mugwumps is crushed. Gov. Hill is still in the field.

The inatances in which the Mugwump organs have criticised the President are

connection the New York World says:

In Maryland, as in Indiana and other States, there has been practically a clean sweep of the 'offices and the spoilsmen have been given full sway. If the Independent and Mugwump leaders and organs had rebuked this inconsistency as it deserved, there would have been fewer cases like those of Hedden, Beattle, Higgins, Thomas, Scriba, Stone, and Combs to bring contempt upon the cause of reform. Instead of weak expressions of "wonder" as to why the President allows himself to be 'misled," they should arraign him with the fearlessness of truth for going openeyed and obstinately in the wong direction whenever it suits his purposes or his whims to do so.

Here we have a great Democratic organ

Here we have a great Democratic organ freely confessing that the President supported has played fast and loose with his pledges to the reformers and has prac-tically given the spoilsmen full swing. That this is the fact cannot be disputed and yet the lick-spittle organs go right along asserting that the blunders the Administration has committed are overbalanced by the great good that has been accomplished. They fall to state, however, what it is that has been accomplished, for the very good reason that any attempt in that direction would simply make them even more

The Providence Journal says that the "type of statesmansh p and the political issues," which Gen. Logan represented, were entirely out of the question as re gards any success of the Republican party in the future." Gen. Logan stood squarely on the Republican platform of a free bal lot, an honest count and protection to American labor, the three great I suce on Boutelle & Burr, and communications intended which the next campaign will be forigon for publication should be addressed: "Editor of and won by the Republicans. There are a which the next campaign will be fought few papers like the Journal that cater to Mugwump admiration by sneering at any reference to an honest ballot as "sectional antagonism," but they do not represent the sentiment of the party, fortunately. lorg as elections are conducted in the South so as to disfranchise thousands of voters by frauds so glaring that they are even repudiated by Southern organs as was the case in South Carolina this fall. the Republican party has a mission to perments of quasi Repub ican organs. Gen dent of the result. Some one is going to Logan was more to the Republican party than a dozen such papers.

The Maine Insane Hospital.

TRUSTEES' REPORT. The Trustees report that the number of patients under treatment, the daily aveage, and number remaining at close of the year, was larger, and the rate of mortality lower than that of any previous year of the existence of the hospital, thus denoting mentioned in connection with the Massachusetts Senatorship, has written a letter
saying that he is not a candidate. Mr.
Dawes, the present Senator, and Represenative Long now have the entire field to
themselves.

The Governor and Council have given
the petitioners for the pardon of several
murderers leave to withdraw. This action
will generally be sustained by the people

existence of the hospital, thus denoity of
the institution is practically free from indettedpless, indicating the efficient manasegment of the finances by the Treasurer.

At the regular visits of the board, an inspection of every ward has been made, it
every patient has been seen, and the condition of each one noted. The condition of
the bit diags, farm, stock, etc., has been
given to all the complaints. The lady
will generally be sustained by the people murderers leave to withdraw. This action will generally be sustained by the people of the State. Of course there are sometimes extenuating circumstances, but in the majority of convictions the criminals fufly merit the sentence imposed by the Court, and it should be allowed to stand.

Maloe and New Hampshire have been consolidated so far as the office of Bank Examiner is concerned and William A. Heard, of New Hampshire, who was backed by Hou. Frank Jones, secures the position. The expediency of this consolidation will be questioned just at this time when the people feel that these bank examinations should be made more thorough.

One of the express robbers recently ar-

The need of an abundant water supply be required to settle with the express messenger who was arrested on suspicion of being implicated in the robbery remains to be seen.

The Chicago Knights of Labor denounce the letter of Grand Master Powderly forbidding the raising of funds for the Anarchists and say unless the order is withdrawn his, authority will not be recognized. If the Chicago-Knights desire to weaken their organization they have taken just the right course. Organizing for mutual pro-

In regard to the crimically insanc, the

service of Dictal of the institution, as well as other officials of the institution, and, in conclusion, they ask from the State the continuance of its liberal policy towards the institution. The report is signed by the entire Board of Trustees, James Weyroouth, Daniel O. Bowen, Mrs. En da J. Torsey, E. A. Thompsen, J. W. Dentborn, J. H. Manley.

SUPERINTENDENT REPORT. SUPERINTENDENT REPORT.

At the beginning of the year, Dec. 1, 1883, there were resident in the Hospital 486 patients—241 men and 245 women. Two hundred and thirty-one have been admitted since—127 men and 104 women; making the whole number under treatment, 717—368 men and 349 women. (If these there have been distharged 189—408 men and 83 women; leaving at the class of the year, 528—262 men and 266 women. One hundred and seventy-six of classe admitted during the year were on their first admission, 38 on their second, 7 on their first.

The instances in which the Mugwump organs have criticised the President are rare and have been accompanied almost always by an apology, to the effect that Mr. Cleveland has been misled or imposed upon by unscrupulous politicians. In this connection the New York World says:

In Maryland, as in Indiana and other saves of the offices and the spoilsmen have been given full sway. If the Independent and Mugwump leaders and organs had rebuted this inconsistency as it deserved, there would have been fewer cases.

more ceserving and less dangerous class-of patients.

The Treasurer's report shows that the resources of the Hospital amounts to \$63, 360.79, with liabilities of \$26,369.25, leaving the net available resources \$37,531.54.

The cash receipts for the past year, it-cluding \$8,276.53 on hand Dec. 1,1885 were \$118,419.70, and the disbursements were \$118,612.68, leaving a balance of cash or hand Nov. 30, 1886, of \$4,907.02.

The Insane Hospital.

Following is the report of the visiting

committee to the Insane Hospital, for the year 1886, as submitted to the Governor and Council:

year 1886, as submitted to the Governor and Council:

This institution has been visited every month during the year by at least two members of the compatite, separately, and at irregular periods. Our visits were not anticipated, yet we invariably found each department nest and orderly, and the officials and attendants paying close attention to their several dates. We have heard but few complaints from the immates, and those upon exami ation appeared to be unfounded and im girary. The patients are well clothed unimappeared to be well treated and properly cared for. In the out door exercises of the patients, in the absence of unnecessary restrict of these unfortunets, and in more approved means on the part of the attendants to preserve order and quet, there has been evident improvenent. The farm, garden, sewing room and aundit have afforded regular occupation; to many of the patients. Experience has shown that regular and carefully adapted employment, physical and mental, is a potent agent it bringing the districted mind back into a healthy action. In misunose of this fact, we recomment that facilities for light occupation be previded a tire hulls of the justicution to the extent that the largest number of the inman s practically as a mens of restoration to health, at the patients have had the opportunity of taking walks, drives, and other healthful recreation in the purk and I wins. They have also had frequent gatherings for various should amusements and convensation, in which the more orderly afford an example which the initiative tendercy of the disorderly often induce the latter to copy.

isorderly often induce the laster to copy. TWO CLASSES OF INSANE.

disorderly often induce the latter to copy.

TWO CLASSES OF INSANE.

In our frequent visits to the linst tution for the past two years we have observed that the superintendent has be n under the necessity of associating the 'spinitial 'insane with the function linear. In our last-report we suggested that the at should be taken to separate them and keep each class by themselves. We now recommend that the State have a separate of dibitig in which the criminal insane shoul, be exceed for and treated entirely separated from the others. We believe it to be harmful to permit these two classes of patients to mingh with each other. The injurber of criminal insane committed to the institut or has increased yearly since the passage of the jail law in 1877. We find that there are towart the hospital chirty of this class from the calculation and jails of the Star, whom the odicials are under the necessity of treating with the harmless. While we be iver very precaution is being taken by the short branch of the institution for other causes than indeed the commitment the errich and provided the seminiment that ear minal insane, to know that they are subjected to the necessity of associations.

insane, who are sent to the institution for other causes than in fuced the commitment of the cr minal insane, to know that they are subjected to the necessity of associating with that class. Should the State construct a tuilding to be used sole y for the criminal insane, as above recommended, then the present hospital would accommendate more patients of that classifor which it was intended.

The Hispital raises a very large amount of vegetables; but has no suit ble place for housing them, consequently a place should be provided for keeping the farm products. If a building should be constructed for the accommodation of the criminal insane, its calin could be used for storing vegetaties. We blick it it conomy to exect such a building. The present site of the old chipel is very objectionable because of its obstructing so much of the view to the accommens of the male wings of the Hospital. Ye would recommen a that the old chapel be removed to some suitable location and put [1] proper a condition for the care of the crimina insane, in case a new building is not preceded for that purpose.

sane, in case a new building is and, crected for that purpose.

We find that the Lospital is a ider the necessity of providing for the hele, nooms in the attic which, from their location, we believe to be unsuitable for this Jurpose. We recommend that noom be inade for the help by elongating the chapel building in the direction of the nentre, not only for providing suitable sleeping-rooms for the help, but ilso for the purpose of etherking the chapel which has become too small for the increased number of the lamatis.

We have examined very

MANY NEEDFUL IMPROVEMENTS

which hive been made during the year, among which may be mentioned the formation of new and improved pariors, dining rooms, bath-rooms, and water closets. We have also noticed very desirable improvements made in the heating apparatus of the institution.

The death rate of the Hospital has been very much decreased, notwithstan ling the daily aveage of putients has been very much decreased, between the general good heath which has prevailed here has been promoted to a great extent by the improvement made the past few years in the ventilation and drainage, which indicates the constitution of the ventilation and drainage. xcellent similary conditions. We state, in conclusion, that we are

sed w th the executent me pleased with the excellent management, of the affairs of the Hospital, and we are as sured that itrustees, super needent! an other officers fully realize the yarish need of the institution.

Hospital with the greatest rate and vigliance.

Let us continue to extend to trem patience, kind less, and the most approved
